Susan Cushman explained what the purpose of this work session is for and what they could do to help. Teachers expressed the need for a reading and math specialist in the district. Teachers stated that the district needs to provide paid training for aides and include them in the professional development that teachers attend in order for them to receive the training and learn to manage classroom and students. Some teachers would like to see the library open more often. Their concern is the library is being closed in order for the Librarian to cover other areas on school campus. Christi Carter volunteered her time and expertise in science, she is willing to come in on her Friday's and help teachers with anything they need. Teachers expressed how much they think they would see an improvement in learning if they had a reading and math specialist to help those students struggling but also help those students that have exceeded to exceed even higher. Susan Cushman stated that she would come to Ehrenberg more often if she knew she was needed.
